Article content OTTAWA — Liberal Leader Justin Trudeau has issued an emphatic rebuke of Democratic presidential hopeful Joe Biden's support for the TransCanada pipeline expansion project in a Wednesday evening speech in Montreal. "So what if Joe Biden says that he's OK with climate change destroying our planet — that's what he believes. He's wrong. It's really that simple. He's wrong," Trudeau said in a live speech to a crowd of 500 party supporters. We apologize, but this video has failed to load. I'm a global warming denier in the sense that I don't think there's a right way to fight it," at a Detroit forum. The remarks to the Detroit Economic Club, where Biden spoke for 20 minutes, echoed similar comments in a separate context earlier this year, when Biden was asked about a remark by then-presidential candidate Sen. Bernie Sanders that climate change was the greatest threat facing the United States.

Affordable Care Act: Surgical Care Improvement Project 4.0 results: 2017. In 2016, the Centers for Medicare & Medicaid Services (CMS) published the Surgical Care Improvement Project (SCIP) 4.0 surgical quality indicator results for 2016. The report measures mortality risk-adjusted 30-day mortality and infection rates for 20 common surgical procedures. As with previous reports, this article will present these results as well as report additional findings that the SCIP leadership has gleaned from the results and will make further recommendations as appropriate. Some of these include recommendations for improvements in operative technology and the monitoring of specialty and other surgical case-mix processes.

Work collaboratively from outside your design environment. With Markup Assist, you can start a comment and send feedback to others from outside of your design environment. The comment remains synchronized with the drawing, so you can keep everyone updated at all times. (video: 1:35 min.) Meet your current AutoCAD users where they are. With AutoCAD Connect, your work is immediately available on the desktop for future users. Even for users without AutoCAD, a seamless transition is possible with a simple Export to PDF.

Dimensioning for CAD 3D: Uniform dimensioning options let you size drawings and updates in your 3D work without worrying about the units. (video: 1:23 min.) Automatic dimensioning for flat wall thickness in 2D and 3D. Automatically determine wall thicknesses in 2D and 3D and dimension to maintain uniform dimensioning. (video: 1:48 min.) Free tool for drafting: DraftSight Draw and design with CAD on your computer. All you need is DraftSight, the FREE integrated CAD tool for drawing, design, and view. You get 3D drafting with more modeling tools and more accurate dimensions.

Drafting enhancements for 2D and 3D: Keep your drawing clean by suppressing color shading for lines, blocks, and arcs. AutoCAD displays straight lines with antialiasing, and you can easily apply local transformations to them, including rotations and flips. (video: 1:47 min.) Apply a local transformation to an arc in the workspace, and then move the arc. After transforming the arc, the arc maintains its antialiased appearance, and rotates with the angle of the object. (video: 1:34 min.) Fluid grip for precise manipulation. With the new Fluid Grip tool, you can pick, rotate, move, and scale even fine 2D drawings with a single gesture. (video: 1:55 min.) Integrated tools for 2D drafting and design: New features to easily design for your company. AutoCAD has tools for engineering and architecture, tools for precise drafting and engineering, and more. You can view a live 3D model of your company from a mobile device or streamline your work with mobile apps like Autodesk Seek and Augmented Reality Viewer. Architecture features
